EXPERIENCE

A2SV - Introduction to Competitive Programming

African to silicon Vally

📅 01/2024 - Present   📍 Location

Company Description

- A2SV is a ten-month training program that focuses on algorithms, data structures, problem solving, communication skills, and personal development.

PROJECTS

1. Wallpaper React Native App

📅 Date period   📍 Location

https://github.com/Yosef64/wallpaper

- It is a mobile app that features a wide array of attractive Habeshan images, perfect for mobile wallpapers. The app offers high-quality, stunning visuals that celebrate the rich culture and beauty of the Habeshan region.

2 . Rental Website

📅 Date period   📍 Location

https://github.com/Yosef64/Everything or https://jorent.vercel.app

- It is a rental website that will work as a third party between the tenant and the homeowner. The platform aims to streamline the rental process by providing a secure and efficient way for tenants to find suitable housing and for homeowners to list their properties. Features include verified listings, secure payment options, and a user-friendly interface that makes it easy for both parties to communicate and manage their rental agreements. Additionally, the website offers various tools and resources to help tenants and homeowners navigate the rental market with confidence.
